1. On orders from the SMA, dismantling work has begun on the Maschinenfabrik Dreilinden, located near the town of Klein-Machnow (Z73). The plant includes over thirty buildings, some of which have been used by the Soviet Army as vehicle repair shops. These shops have already been moved to Berlin-Schöneweide.
2. It is estimated that about 5,000 tons of structural steel will be obtained from the demolition of the buildings. A special railway spur, begun on 9 April, is being laid to remove the steel from the area.
